ABSTRACT

MUIIR Portal is a centralized platform designed for the Marwadi University Innovation, Incubation and Research Center. The portal aims to manage all the activities and events of the center, including affiliations with different companies, start-ups, and intellectual property rights such as copyrights, designs, and trademarks. It also manages various facilities like prototype and infrastructure, and provides services like 3D printing and laser engraving.

The portal is equipped with separate dashboards for admins, students, and mentors to effectively manage all the activities. Admins have the authority to control and oversee all the activities, assign mentors, and allocate students to specific mentors. The platform streamlines the communication process between students and mentors and helps in the smooth functioning of the center.

Overall, the MUIIR Portal is an efficient tool that centralizes and manages all the activities of the Innovation, Incubation and Research Center, thus creating a seamless and effective environment for the students, mentors, and administrators.

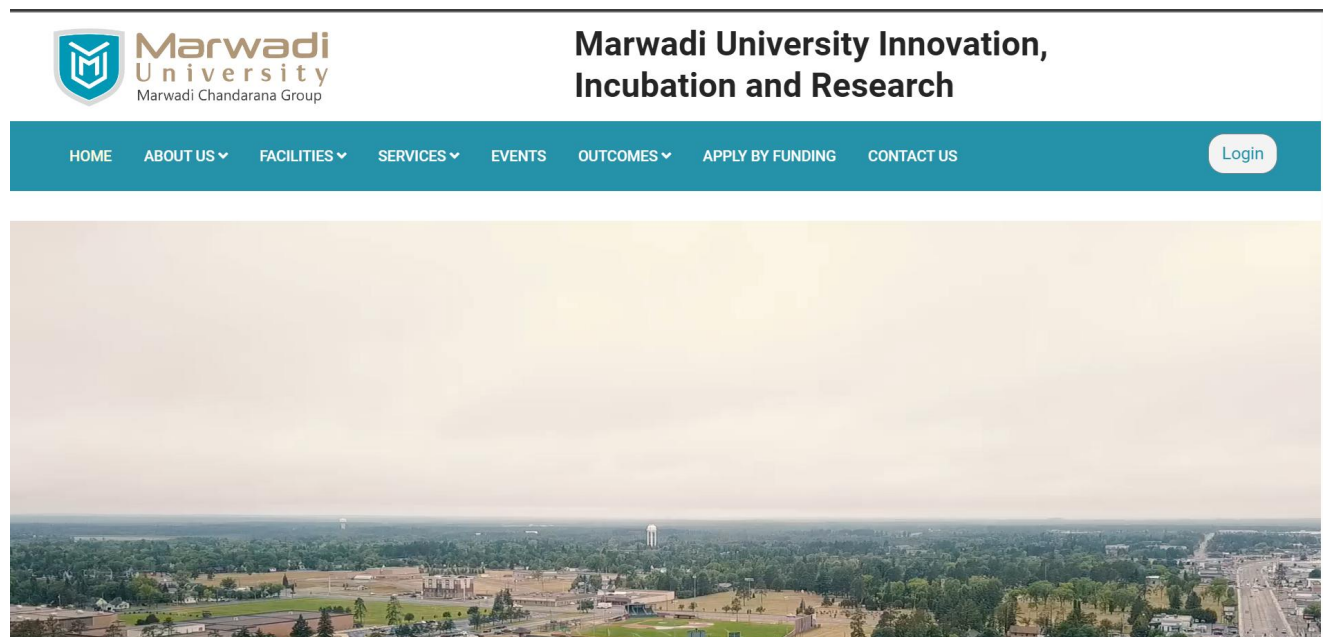

ACKNOWLEDGEMENT

We would like to express our deepest appreciation to all those who provided us the possibility to complete this report. A special gratitude we give to our project Guide, Dr. Amit Sata Sir, their contribution, encouragement and suggestions, helped us to complete our project work especially in writing this report.

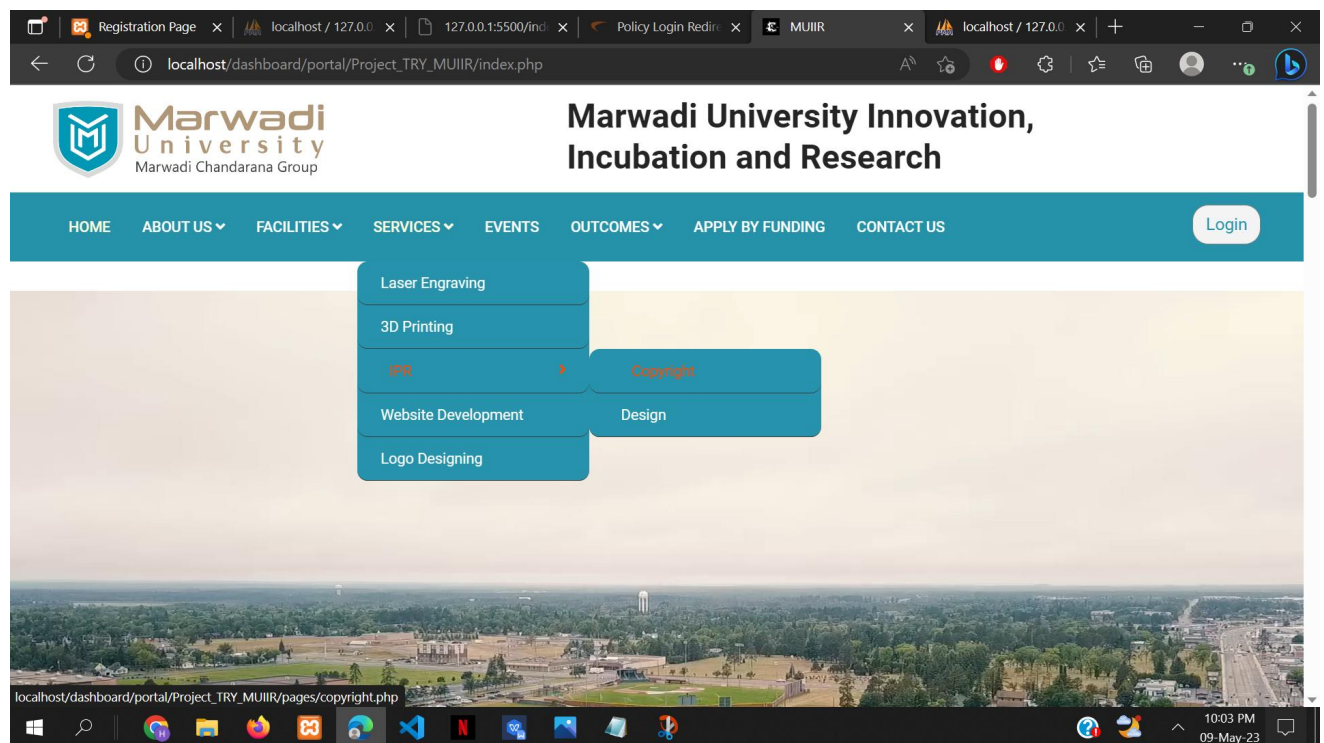

We have to appreciate the guidance given by other supervisor and we are also thankful to Prof. Chandrasinh Parmar Sir

Hasti Hajipara
Hitesh Jethva

Outputs:

Here, you can find all the details about the center's events, facilities, services, and outcomes. We have included a video that showcases the MUIIR Center and its facilities. You can also find information about the center's objectives and achievements.

Here, you can find all the information about copyrights and how to register for them. If you are a student and want to register for copyright, you need to fill out the form below. The form includes a dynamic table option for the inventor, where you can input the necessary information. Additionally, you will need to fill out other required fields before submitting the form.

Once you submit the form, it will be reviewed and processed by the admin. The admin will verify the information and ensure that all necessary details are included. You will be notified of the copyright registration once it is approved.

Copyright

A copyright is the exclusive legal right over how original content or materials you've made get copied, shared, reproduced, printed, performed, or published by others. In other words, copyright provides you with exclusive rights to: Reproduce your work Distribute or sell your work Display or perform your work publicly Create derivative works based on the original work It also allows you to authorize or restrict others in exercising these rights, further protecting your original works if they're ever stolen or plagiarized.

A copyright usually consists of the following four components, which we'll discuss in more detail later in the article:

Copyright symbol © or the word "copyright"

Year the material was published Name of the copyright owner What rights are retained by the copyright Some examples of copyrighted works include: Art, Literature, Videos, Images, Photography, Choreography, Music, Sound clips

Conclusion:

In conclusion, the MUIIR Portal is a centralized platform that effectively manages and streamlines the activities of Marwadi University's Innovation, Incubation and Research Center. The portal offers features like event management, affiliation with different companies, intellectual property rights registration, and facility and service management.

The platform is equipped with separate dashboards for admins, students, and mentors, enabling effective communication and collaboration. It also offers dynamic form options for activities like copyright registration, making the process more efficient and accessible.

Overall, the MUIIR Portal aims to create a seamless and efficient environment for students, mentors, and administrators to collaborate and innovate together. It provides a comprehensive platform for managing all aspects of the center's activities and helps to foster a culture of innovation and research. With its user-friendly interface and efficient features, the MUIIR Portal is a valuable tool for anyone associated with Marwadi University's Innovation, Incubation and Research Center.
